17. With all due respect, the Preliminary Appreciation Committee of this Honorable Tribunal committed a grave error when they overruled the objections of protestant Marcos for lack of evidence *aliunde* even though he was not given any opportunity to present his evidence in support of his pilot protest.

18. It bears stressing that the preliminary appreciation of the revised ballots from the pilot provinces was completed on **14 August 2019** without giving the parties in this case any opportunity to present their respective evidence despite the express mandate of **Rule 55 to 62** of the **2010 PET Rules**.

19. In fact, protestant Marcos filed an *Extremely Urgent Motion to Set this Election Protest for Preliminary Conference* on **9 August 2019** to pave the way for the reception of evidence in this case pursuant to **Rule 55 to 62** of the **2010 PET Rules**. Unfortunately, the same was **not granted** by this Honorable Tribunal.

20. It is unfair and unjust on the part of protestant Marcos that his objections against the ballots for protestee Robredo were overruled by the Preliminary Appreciation Committee for lack of evidence *aliunde* even though the said lapse/failure cannot be attributed against protestant Marcos. To repeat, protestant Marcos is willing to present evidence, that is why he filed his *Extremely Urgent Motion to Set this Election Protest for Preliminary Conference*. Sadly, this Honorable Tribunal did not grant his motion.

21. Protestant Marcos is also assailing the finding of the Preliminary Appreciation Committee with regard to the ballots of protestee Robredo which were duly objected by protestant and found to contain **BEI signatures that are glaringly different from the BEI signatures found in other election documents.** These questionable ballots of protestee Robredo containing **BEI signatures**

that are glaringly different from the signatures of the BEI found in other election documents should be invalidated. The decision of the Preliminary Appreciation Committee to overrule the objections of protestant Marcos is serious error which should be immediately rectified by this Honorable Tribunal.

22. Presented below in tabular form are the ballots of protestee Robredo which were duly objected by protestant and found to contain BEI signatures that are glaringly different from the BEI signatures found in other election documents, but were erroneously overruled during the preliminary appreciation, thus:

Municipality of City of Passi, IloIlo

CP No.	BARANGAY	EXH. No.	Protestant Objections	Rulings	OWVB BEI signatures are glaringly different to other election documents.

Total					33

23. Aside from the errors of the Preliminary Appreciation Committee on the objected ballots subject of the pilot protest, this Honorable Tribunal is also called upon to **review, re-examine and reconsider** the findings and conclusions relevant to the claimed ballots of the protestant and protestee.

24. The following claims of protestee Robredo should be rejected by this Honorable Tribunal, thus:

ANNEX C-1  
SUMMARY PER PROVINCE

PROVINCE	Total No. Of CP	Oval for claimant not shaded but contains markings consistent with those made for other position	Oval for claimant with ambiguous shading but the same is consistent with those made for other position	Admitted. No findings	Claim was rejected however the ballot/s was/were added to the claimed ballot for Robredo	Claimed Rejected ballots by Protestee
CAMARINES SUR	1,816	1,759	2,214	28	6	356
ILOILO	2,318	1,778	1,536	20	16	190
NEGROS ORIENTAL	1,284	967	727	16	16	141
TOTAL	5,418	4,504	4,477	64	38	687

25. It is evident from the Preliminary Appreciation Report annexed to the Resolution dated 15 October 2019 that the oval for protestee Robredo was **NOT SHADED**. The rule is clear and simple, only ballots containing the correct shading threshold should be admitted as valid claims for the concerned claimant. Hence, it was seriously erroneous on the part of the Preliminary Appreciation Committee to admit those ballots as valid claims of protestee Robredo even though the ovals for protestee Robredo were not shaded.

26. Presented below in tabular form are the ballots which were admitted as valid claims in favor of protestee Robredo even though the oval opposite the name of the protestee in each of these ballots was not shaded, thus:
