27. As for the claims of protestee Robredo which were admitted even though the ovals for claimant were ambiguously shaded, that finding and conclusion of the Preliminary Appreciation Committee is again flawed. To repeat, only ballots containing the correct shading threshold should be admitted as valid claims for the concerned claimant.

28. Presented below in tabular form are the ballots which were erroneously admitted as valid claims in favor of protestee Robredo even though the oval opposite the name of the protestee in each of these ballots was ambiguously shaded, thus:

Province of Camarines Sur

Municipality of Baao
