**MEMORANDUM
OF PROTESTEE MARIA LEONOR G. ROBREDO**

PROTESTEE **MARIA LEONOR G. ROBREDO**, by the undersigned counsel, to the Honorable Tribunal, in compliance with the Resolution dated 05 November 2019¹, submits her Memorandum and respectfully states:

PREFATORY STATEMENT

The 13 members of this Honorable Tribunal that issued the 15 October 2019 resolution were UNANIMOUS in their findings that protestee Robredo INCREASED her vote-lead over the protestant after the revision and recount of the ballots from the three pilot provinces (Camarines Sur, Iloilo and Negros Oriental) which were PERSONALLY CHOSEN by the protestant.²

¹On 15 November 2019, protestee Robredo received the Resolution dated 05 November 2019 by the Honorable Tribunal. Under the Resolution, the parties are directed to file their respective Memoranda within twenty (20) days after completion of the requested viewing and photocopying. The photocopying of the annexes was completed on 29 November 2019. Hence, protestee Robredo has twenty (20) days from 29 November 2019 or until 19 December 2019 within which to file her Memorandum. Hence, this Memorandum is being timely filed.

² Par. 1, page 53 PET Resolution 15 October 2019.

Surely, there is sufficient factual and legal basis to conclude that "(f)or failure of protestant to make out his case, no basis exists to continue with the proceedings in this election contest"³, and "(t)he Protest should be dismissed for protestant's failure to make out a case using his pilot provinces."⁴

During the Preliminary Conference and, as contained in his Preliminary Conference Brief and other pleadings, protestant admitted that if he cannot show any substantial recovery from the recount of ballots from his three pilot provinces, his protest will be DISMISSED pursuant to Rule 65 of the 2010 PET Rules.

Indeed, with such uncontested findings, this Honorable Tribunal will be treating this protest as a special case if it is not dismissed under Rule 65. All existing jurisprudence and rules of tribunals hearing election cases strictly follow and comply with the pilot precincts rule, such that if an election protest fails to pass the initial determination of its merits after a recount of its pilot precincts, then the ultimate end is the immediate DISMISSAL of the protest at that stage of the proceedings. A dangerous precedent would be set if protestant will be allowed to unduly expand his pilot provinces.

And yet, the protestant, after clearly losing in the recount proceedings of his pilot provinces, is insisting that this Honorable Tribunal should continue with his protest by now asking for the "annulment of the election results" from the Provinces of Maguindanao, Lanao del Sur and Basilan. His only basis is the alleged findings of the technical examiners of the COMELEC Voter's Identification Division on the voting records involved in the election protest entitled, "Abdusakur Tan vs Mujiv Hataman, EPC Case No. 2016-37."

But protestant is not telling this Honorable Tribunal that the alleged findings involve only 200 clustered precincts out of the 2,834 clustered precincts protested in the Tan case or that the COMELEC (Second Division) has already dismissed the said case.

³ Par. 1, page 1, Dissenting Opinion of Justice Antonio T. Carpio.

⁴ Par. 2, Dissenting Opinion of Justice Alfredo Benjamin S. Caguioa.

Like the boy who cried wolf, protestant Marcos has lost all credibility to say that he was cheated out of the Vice-Presidency. The result of the revision, recount and re-appreciation of the ballots from his pilot provinces affirmed the victory of protestee. It also confirmed what protestee has maintained from the very start – the allegations of massive electoral frauds, anomalies and irregularities are unsubstantiated.

Hence, for protestant's apparent failure to make out a case in his personally chosen PILOT PROVINCES, there is no basis to continue with the proceedings pursuant to Rule 65 of the PET Rules. For "even if he finds the process unsatisfactory or too difficult, he is not at liberty to simply disregard it and carve out a new procedure according to his liking."⁵

To borrow the words of Chief Justice Diosdado Peralta, even (t)he use of the word "substantial justice" is not a magic wand that will automatically compel this Court to suspend procedural rules xxx Thus, as called upon by the respondents, the Court yields to the time-honored principle "Justice is for all". Litigants must have equal footing in a court of all; the rules are laid down for the benefit of all and should not be made dependent upon a suitor's sweet time and own bidding.⁶

Thus, in an election case, the late great Chief Justice Claudio Teehankee said: "It is imperative that there be no unjust or unconstitutional application of the law "fair on its face and impartial in appearance (but') applied and administered by public authority with an evil eye and an unequal hand."⁷

RESULT OF THE ELECTIONS

1. Based on the Certificates of Canvass and Resolution of Both Houses No. 1⁸, the parties received the following votes:

Name	Votes Received
Marcos, Ferdinand Jr R.	14,155,344
Robredo, Maria Leonor G.	14,418,817

2. Upon her proclamation, protestee Maria Leonor G. Robredo (hereafter "Robredo" for brevity) had a winning margin of **Two Hundred Sixty Three Thousand Four Hundred Seventy Three (263,473) votes.**

THE ELECTION PROTEST

3. Protestant Ferdinand R. Marcos, Jr. (hereafter "Marcos" for brevity) assailed, impugned and contested the results of the elections in the following twenty seven (27) provinces and five (5) cities:

4. In compliance with **Rule 65⁹ of the Rules of the Presidential Electoral Tribunal**, protestant Marcos designated Provinces of Camarines Sur, Iloilo and Negros Oriental as his pilot provinces:

Province	Marcos	Robredo
Camarines Sur	41,219	664,190
Iloilo	94,411	573,729

⁹ Rule 65 of the 2010 Rules of the Presidential Electoral Tribunal provides:

"Rule 65. *Dismissal; when proper.* – The Tribunal may require the protestant or counter-protestant to indicate, within a fixed period, the province or provinces numbering not more than three, best exemplifying the frauds or irregularities alleged in his petition; and the revision of ballots and reception of evidence will begin with such provinces. If upon examination of such ballots and proof, and after making reasonable allowances, the Tribunal is convinced that, taking all circumstances into account, the protestant or counter-protestant will most probably fail to make out his case, the protest may forthwith be dismissed, without further consideration of the other provinces mentioned in the protest.

The preceding paragraph shall also apply when the election protest involves correction of manifest errors.

FINDINGS UNDER RESOLUTION DATED 15 OCTOBER 2019

7. After the recount, revision and re-appreciation of the ballots from the three (3) pilot provinces, the Honorable Tribunal found that the lead of protestee Robredo increased from 263,473 to 278,566:

“The sum of TOTAL A and TOTAL B represent the votes of the parties in all the clustered precincts which functioned during the 2016 National and Local Elections, after revision and appreciation of the ballots in the 5,415 clustered precincts in the pilot provinces, thus:

	Robredo	Marcos
Total votes in the clustered precincts other than the 5,415 pilot clustered precincts	12,926,159	13,953,259
Add: Total votes in the 5,415 pilot clustered precincts after revision and appreciation	1,510,178	204,512
Total votes in	14,436,337	14,157,771

all clustered precincts after revision and appreciation of the ballots from the pilot clustered precincts		
---	--	--

Thus, based on the final tally after revision and appreciation of the votes in the pilot provinces, protestee Robredo maintained, as in fact she increased, her lead with 14,436,337 votes over protestant Marcos who obtained 14,157,771 votes. After the revision and appreciation, the lead of protestee Robredo increased from 263,473 to 278,566.”

8. In the Resolution dated 15 October 2019, the Honorable Tribunal reiterated the Ballot Appreciation Guidelines used in ruling on the objections of the parties:

“Objections

With the votes from revision as starting point, for objections, the Tribunal either sustained an objection, resulting in a deduction of a vote from the party for whom the vote was counted, or rejected an objection, resulting in the retention of the vote for the party for whom the vote was counted.

The following are grounds for objections:

A. Spurious Ballots (SB)

Spurious ballots are those ballots which were not issued by the COMELEC as they do not contain the security

features, or where the signature of the BEI chairperson's signature appearing in the other ballots and other election paraphernalia (SB-BEI).

A ballot is spurious if it lacks any of the security features of the official ballots, which are the timing marks, ultraviolet ink mark, box for signature of the BEI chairperson, ballot ID, precinct in cluster, and the barcode (SB-FAKE).

A BEI chairperson's failure to sign or initial a ballot will, however, not invalidate a ballot, as this would otherwise disenfranchise the voters and place a premium on official ineptness.

B. Substituted Ballots (SuB)

Substituted ballots are ballots where the ballot ID on the paper ballot does not match the precinct-assigned ballot ID.

C. Shaded by One (SBO)

SBO ballots are two (2) or more ballots which were filled in by one (1) person. Evidence *aliunde* must be presented as proof. Absent such evidence, the Tribunal shall admit the ballots.

Evidence *aliunde* is required as it would not be possible to determine whether whether two (2) or more ballots were filled in by one (1) person just by looking at the ballot. Further, since the ballots are filled in by just shading the corresponding oval, it would be impossible to know just by looking at the ballots if one (1) person shaded two or more ballots.

D. Shaded by Two or More (SBT)

SBT ballots are those which have been filled in by two (2) or more persons. Evidence *aliunde* must also be presented as proof and absent such evidence, the Tribunal shall admit the ballots.

E. Marked Ballots (MB)

Marked ballots are those which are marked by the voter for the purpose of identifying the ballot as one that the voter accomplished. Two (2) elements must concur to invalidate the marked ballot:

- (a) The voter must have placed the mark; and
- (b) The mark was placed deliberately for the purpose of identifying the voter or the ballot.

A marked ballot is invalidated when the following when the following kinds of markings are made, upon which it is considered a Marked Ballot due to Unnecessary Markings (MB-UM):

- (a) Names, signatures, initials of voters; erasers of the candidates' names, written names of candidates, the words "valid" or "rejected" if written by the voter;
- (b) Irrelevant or impertinent expressions, comments, epithets prominently written by the voter in order to identify him/her or the ballot; and

- (c) Use of marking which is prominent from a distance.

Further, a ballot may be considered as marked due to over-voting in positions other than the Vice-President (MB-OV). It must be shown that the over-voting was done deliberately to mark the ballot.

A ballot may also be considered as marked due to pattern voting (MB-PV). This means that the ballots were marked by several voters in an identical manner for the purpose of identifying themselves or their ballots. This requires the presentation of evidence *aliunde* and in the absence of such evidence, the ballot shall be admitted.

On the other hand, unintentional marks that the voter or some other person made will not invalidate the ballot. These may be any of the following:

- (a) Ink smudges;
- (b) Ink bled or blots;
- (c) Dirt on the face of the ballots which seem unintentional;
- (d) Random fingerprints, unless they are clearly made to easily identify the ballot or the voter;
- (e) Any other unintentional markings, which are not prominent from a distance; and,
- (f) Desistance markings, which may be:
 - a. Lines indicative of desistance (LID)
 - b. "X" marks or cross marks indicative of desistance (XID);

- c. Erasure indicative of desistance (EID); or
- d. Signs/symbols indicative of desistance (SID).

F. Pre-shaded Ballot (PSB)

Pre-shaded ballots are ballots which have been shaded prior to the conduct of elections. This requires evidence *aliunde*; otherwise, the ballot shall be admitted. Similar to SBO and SBT, it would not be possible to determine the validity of this objection by merely examining the ballots.

G. No stated objection (NSO)

The parties must specify their objections to the ballots. Ballots that have been objected to without specific grounds for objection shall be admitted.

The Tribunal also has the plenary power to deduct a vote from a party even if there is no registered objection to it if, upon its examination of the ballot, there exist grounds for the deduction of such vote from the party.”¹¹

9. In the pilot provinces, a total of **Eight Hundred Forty Eight (848) votes** were deducted from protestee Robredo.

10. However, the objections requiring evidence *aliunde* were deducted from protestee Robredo notwithstanding that no evidence was presented.

11. Thus, these votes must be added back to protestee Robredo:

14. However, as previously confirmed by the Honorable Tribunal and the Commission on Elections, the Vote Counting Machines (VCMs) have been programmed with a specific threshold.

15. For purposes of the 09 May 2016 National and Local Elections, the threshold was twenty-five percent (25%).

16. While, some ballots may appear to contain two (2) chosen candidates, the VCM still read and counted votes in favor of protestee Robredo which reached the twenty-five percent (25%) threshold.

17. To now invalidate these votes would be disenfranchise the voters who validly casted their votes in favor of protestee Robredo.

18. Finally, the Honorable Tribunal invalidated votes for protestee Robredo for being marked ballots:

19. However, the Honorable Tribunal did not specify the alleged markings on the ballots which would invalidate the votes for protestee Robredo.

20. Meanwhile, the Honorable Tribunal added a total of **Four Thousand One Hundred Fifteen (4,115) votes** to protestant Marcos.

21. However, a total of **Seven Hundred Fourteen (714) votes** votes should not have been added to protestant Marcos:

22. In ruling on the claims, the Honorable Tribunal credited votes where there are no shade in the oval beside the name of protestant Marcos:
