FIRST REGULAR SESSION

House Bill No. **3672**

Introduced by Congressman Ferdinand R. Marcos II

EXPLANATORY NOTE

Bridges, like roads, serve as links of production centers or farms to trade centers or markets. Thus, bridges in rural areas encourage the growth of trade and commerce activities which benefit rural folks. Such infrastructure also provide conducive condition for greater mobility of people whether for economic or other purposes.

This is the case with the Pacifico Bridge of Marcos town in Ilocos Norte.

Yet the havoc and devastation wrought by Typhoon Maring last 21 September 1992 halted temporarily such mobility and economic activities. This is further aggravated by the destruction of the Pacifico Bridge which is very vital to ^{the} town's trade and commercial ventures.

In line with the above pertinent considerations, this bill seeks the repair and construct an additional 8 span of reinforced concrete measuring 4 meters by 120 meters to the Pacifico Bridge located in Brgy. Valdez, Municipality of Marcos, Ilocos Norte.

Considering the inadequacy of Ilocos Norte's local government funds to immediately repair and rehabilitate the Pacifico Bridge, assistance from the National Government is earnestly requested by the way of approval of this bill.
